Frederico Foini

Data Analyst | Growth Analytics | SQL | Power BI & Data Studio | Marketing & Product Performance
São Paulo, São Paulo, Brazil

Summary

I'm a Senior Data Analyst with 7+ years of experience analyzing business performance, optimizing customer journeys, and delivering measurable business outcomes. My background combines Data Analytics, Business Analysis, Growth, and Agile methodologies, allowing me to connect business strategy, customer needs, and data to generate actionable insights and support data-driven decision-making.At Coca-Cola FEMSA, I led strategic analytics initiatives for the Juntos+ B2B platform, analyzing promotional performance, customer behavior, and business opportunities, while driving experimentation through data. My work helped increase market share for strategic partners by more than 5%, delivered consistent month-over-month growth in new buyers, and improved Crystal Water's repurchase rate from 30% to 40% through customer-driven, data-informed initiatives.I enjoy working with cross-functional teams to transform complex business challenges into actionable insights and scalable data solutions. My expertise includes Data Analysis, Growth Analytics, Customer Journey Analysis, Funnel Analysis, Performance Analytics, Stakeholder Management, Business Intelligence, Analytics, OKRs, and Agile methodologies, supported by tools such as Power BI, Amplitude, Braze, Jira, and Confluence.Certified in Product Management by Product Heroes / Talent Garden (Milan, Italy), I'm currently focused on Data Analyst, Growth Data Analyst, and Product Analytics opportunities in international teams, where I can combine analytical thinking, data-driven decision-making, and business strategy to generate insights that drive meaningful business impact.

Experience

Sandbox Group

Project / Growth Specialist (with Data Analytics responsabilities)
September 2026 - Present (2 months)
São Paulo, São Paulo, Brazil

• Own the Web Analytics and Marketing Analytics initiative, building a centralized data warehouse that integrates acquisition data from Meta Ads, Google Ads, Google Analytics, and first-party company databases to create a reliable source of truth for business analysis.

• Develop and maintain acquisition and conversion dashboards, providing accurate visibility into sales performance, conversion rates, funnel performance, customer journey, and channel-level opportunities.

• Leverage SQL and Google BigQuery to query, transform, validate, and analyze large datasets, combining data from multiple marketing and analytics platforms to identify actionable business insights.

• Monitor the end-to-end acquisition funnel on an hourly basis, using New Buyers as the North Star Metric and tracking key performance indicators such as CAC, conversion rate, acquisition performance, and sales volume.

• Partner closely with the Growth team, translating analytical findings into actionable opportunities that support daily campaign optimization, revenue growth, and customer acquisition efficiency.

• Identify data-driven growth opportunities by analyzing customer behavior, funnel performance, acquisition channels, and conversion bottlenecks, turning complex datasets into clear recommendations for business stakeholders.

• Led an analysis of cart abandonment, identifying a significant conversion opportunity through SQL analysis in BigQuery and cross-platform data integration across Meta Ads, Google Analytics, and Google Ads. The initiative contributed to a 50% reduction in Customer Acquisition Cost (CAC) and a 2x increase in daily sales, demonstrating the direct business impact of data-driven funnel optimization.

• Build data visualizations and self-service reporting solutions using Looker Studio (Google Data Studio), enabling Growth and business stakeholders to monitor performance and make faster, data-driven decisions.

Coca-Cola FEMSA

Marketing Coordinator (with Data Analytics responsibilities)

May 2022 - Present (4 years 6 months)

São Paulo, São Paulo, Brazil

• Increased promotional performance by analyzing customer behavior, campaign performance, and conversion data, supporting the design of cross-category promotional strategies and UX/UI improvements based on direct customer insights. These initiatives increased promotion conversion rates by 15%. Managed and analyzed a promotional budget exceeding R$5 million.

• Reduced the Juntos+ promotion deployment cycle by 20% through cross-functional analytics initiatives involving Marketing, Technology, Sales, and Operations. Analyzed the end-to-end campaign delivery process, identified performance opportunities, and implemented improvements through experimentation and continuous testing.

• Led the rollout of Braze and Amplitude across Brazil, coordinating cross-functional teams across Brazil, Mexico, Deloitte Consulting, and Coca-Cola FEMSA. Implemented analytics and customer engagement capabilities within the planned one-month timeline, enabling improved tracking of customer behavior and digital performance.

• Served as the primary point of coordination between key account clients and Coca-Cola brands across B2C digital commerce platforms, using performance analytics to identify growth opportunities with partners including iFood, Amazon, Daki, and Rappi. Redesigned the in-app paid media strategy based on sales and performance data, increasing Monster Energy's share of sales from 35% to 49%.

• Collaborated directly with teams in Argentina and Uruguay on two strategic analytics and growth initiatives:
Developed and implemented data-driven growth strategies in partnership with Sales and local stakeholders to accelerate beverage sales through PedidosYa, analyzing performance and customer behavior to identify growth opportunities.

• Led the development of SMAP, a tactical budget management platform that optimized promotional budget allocation across B2C campaigns in Argentina and Uruguay, increasing promotional ROI by 30%.

Clube do Valor
Senior Growth Analyst
November 2021 - May 2022 (7 months)
Porto Alegre, Rio Grande do Sul, Brasil

• Helped build the foundation of Clube do Valors Growth Analytics and Growth Marketing strategy for its Wealth Management services. As the companys first dedicated Growth professional, established a Jobs-to-be-Done-based customer segmentation framework and a Kanban-driven experimentation pipeline to analyze acquisition channels, identify growth opportunities, and drive revenue growth.

• Led cross-functional analytics initiatives across Marketing, Sales, and Operations, translating business requirements into actionable insights and aligning stakeholders throughout planning, execution, performance analysis, and post-launch follow-up to ensure successful delivery.

• Launched the companys first chatbot MVP, increasing sales by 5%. Designed the conversation flow and UX copy based on customer interviews and frequently asked questions, while translating qualitative customer insights into prioritized data-informed initiatives for the Financial Operations team to improve customer experience and operational efficiency.

• Conducted competitive and market analyses of the U.S. wealth management market, synthesizing market data and strategic insights to inform Sales and Marketing initiatives and strengthen the companys competitive positioning in Brazil.

Company Hero
Product Analyst
February 2020 - November 2021 (1 year 10 months)
São Paulo e Região, Brasil

• Analyzed organic acquisition and conversion performance for Company Hero's content platform, supporting its growth from launch to achieving more than 15 first-place rankings for long-tail keywords, over 5,000 organic impressions, and a 5% conversion rate. Used SEO and performance insights to identify opportunities for traffic and conversion growth.

• Led data-informed discovery and development initiatives for the Marketing Consulting product, contributing to the creation of its first Wizard of Oz MVP within an Agile Scrum environment. The product generated its first R$50,000 in revenue after being built from the ground up.

• Helped design and scale a marketing services product based on a flywheel operating model, analyzing the interactions between clients, partner agencies,

and freelance professionals to support a sustainable growth model and identify opportunities for operational and commercial optimization.

• Owned backlog refinement for the Marketing Consulting product, prioritizing initiatives based on customer interviews, user feedback, Sales insights, and business performance. Partnered with cross-functional stakeholders to translate customer and business data into actionable priorities and align business goals, customer needs, and development initiatives.

Foini Consultores
Developer
December 2019 - February 2020 (3 months)
São Paulo e Região, Brasil

• Supported the development and launch of the companys first digital training portal and online training program, using user adoption and business performance metrics to support product decisions and launch execution.

• Led the end-to-end delivery of a lightweight training portal, working closely with the engineering team to analyze requirements, prioritize development, and coordinate implementation in JavaScript, HTML, and CSS. Delivered the platform in a single one-week sprint, reaching more than 500 users within its first week after launch.

• Defined and executed the go-to-market strategy for the B2B training program Knowing the Needs of Your Clients, tracking acquisition and participation performance against OKRs. The first edition attracted more than 30 participants, doubling the initial target of 15 attendees.

RedaWeb
Growth Analyst
July 2019 - February 2020 (8 months)

• Analyzed and optimized SEO content for clients across multiple industries, applying the companys Growth Marketing methodology to improve organic acquisition, search visibility, and website performance.

• Reviewed and refined digital content based on SEO best practices and conversion performance, contributing to an average conversion rate of 10% across client projects and identifying opportunities to improve organic traffic and user conversion.
